SKILLS

- **Languages:** C++, C#, Python, C, HTML
- **Technologies:** JavaScript, CSS
- **Databases/Tools:** MySQL
- **Soft Skills:** Problem solving, Time management, Adaptability

PROJECTS

Electronic Voting Machine with Verification for Authorised Personnel

Nov 2025 – Dec 2025

- Prevented unauthorized and duplicate voting, making the process faster, more reliable, and secure.
- Enabled voters to select candidates via dedicated buttons, with votes recorded digitally for accurate counting.
- Reduced human involvement by guiding voters step-by-step and confirming and recording selections automatically.
- Minimized errors during voting and counting, demonstrating a practical, modern solution for secure elections.

Restaurant Website

Dec 2025

- Built a responsive website for an Italian restaurant to strengthen HTML, CSS, and JavaScript skills.
- Designed a clean, visually appealing layout reflecting the restaurant's style with simple, user-friendly navigation.
- Used CSS extensively for styling, layout, animations, and responsiveness, with JavaScript for interactive elements.
- Gained practical experience combining multiple web technologies into a complete site built from scratch.

Blender 3D Project

July 2025

- Created a detailed 3D environment in Blender featuring a house surrounded by trees in a natural outdoor setting.
- Arranged multiple scene elements — vegetation, background, clouds, lighting, and color — for a complete, engaging scene.
- Gained hands-on experience with 3D modeling, scene composition, materials, lighting, shading, and environment design.
- Focused on bringing elements together cohesively, improving the scene's overall appearance and realism.

CERTIFICATES

- Introduction to Artificial Intelligence | [Infosys](#)
- Introduction to Python | [Saylor's Academy](#)

ACHIEVEMENTS

- Solved more than **50** programming problems on online coding platforms during regular practice and learning.
- Completed more than **15** 3D Projects using Blender and Unity.

EXTRA-CURRICULAR ACTIVITIES

- Participated in Basketball Competitions in 2023.
- Completed a Community Development Project in 2026, and encouraged 250 students to take part in a quiz by The Times of India.

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; CGPA: 7.56

Phagwara, Punjab

2025 – 2029

Lord Mahavira Jain Public School

Higher Secondary Education; Percentage: 71%
